## *Love All*

Gliding and striding bounce to bounce  
Returning with dainty wind up  
Effortless girl whirls into my world  
Font of sparkles smooth all of my bumps

We trade smiles every match  
She throws a kiss that I catch  
Explosions of love lighten my dark  
Sugary lips that spark mirrorball trips  
Hold her delicate hand through the park

Back here on earth clarifying her worth  
As much as three facets can do  
Trading places for fun, can't remember who won  
Spectators say both of you two

Tie goes to the winners  
That start as beginners  
Now feeling like veterans  
No need for a grade  
Steeped in love as we played  
She makes every day better than

## *Washed Ashore*

Her foggy voice lures me out to the dock  
Diving into dark glass  
Enveloped by love that fits like a sock  
Howling at winds as they pass

Cotton knit pickers have stolen its match  
Held flame is no fuss for us  
Deeper I swim in the brighter the patch  
My rabbit seems to be thrust

Briars and friars and Foreign Legion  
Surround her most all the time  
Salt of the Sea cares not for the season  
Her soft kisses are all mine

Each night by hair of my chinny chin chin  
Chinchilla scurries away  
I'm washed ashore by smooth waves of gin  
Just in time for a new day

Don't fear my ship is anchored in bottles  
Only mail seems to bottom  
Morse code, telegrams, pigeons that waddle  
Enemy must have caught 'em

Here then I go for another pale night  
Chancing the game of the deep

Waiting for rain clouds to string up my kite  
Strike me once more, yours to keep

## *Good Morning*

Finally a day without a wakeup before I fall  
asleep  
I turn and watch your curves, you stir,  
I pull sheet without a peep  
Your breath metronomes and serenades the  
hopeful day ahead  
How could I want for any more than mornings  
when we're wed

A gentle breeze tickles the song birds that  
sprinkles  
The dust of fairies outside our lover's nest  
The sunlight trickles in from corners with tingles

Has it really been two years  
Since the last day we had a talk?  
Has it really been one year  
Since running let you walk?  
Will I really suffer seven years  
For breaking my heart's mirror?  
What I really ask is told in tears  
I beg you to come nearer

Good morning darling, I missed you  
Just lie here in the shade  
Sunlight drowns my scenic view  
My shadow saves the day

## *Joan's Ark*

Saints and sinners spinning 'round  
Time trials catch their tales  
Strumming harps sweet harpies sound  
Joan's ark beached by whales  
Blindfolded boys walk the plank  
Creaking two-by-two  
Diving down where Jolly sank  
Praying I see you

Anemones wave air-free  
As they do on land  
Clown fish rustle by in threes  
Stir up clouds of sand  
Holding breath as best I can  
As a worker bee  
Playing hive and seeking man  
Of the Wine Dark Sea

My mermaid's tail seizes eye  
Cornering coral  
Sharks on high alert glide by  
Encourage quarrel  
Feeling light casts me away  
Dolphins soon appear  
Sun has set on lovely cay  
Greying cold frontier

Still I swim because I must  
Silly submarine  
Moonlight fills my pale of rust  
Happy-faced sardines  
Release last loaned little gust  
Forget all my fear  
Night's water floods, lungs adjust  
Tide is rising here

Sparkles shower my siren  
Only voice I hark  
Joan is waiting by the pier  
Waves have freed the ark  
Surfacing to scope my pair  
Flashing silent signs  
Sunken treasures pay her fare  
Anywhere gold shines

## *Filled With Spirit*

How can I put this gently?  
Incidentally, did you walk across?  
My bag is packed full and intently  
Leaving late feels like a loss

Back to my predicament  
To what extent will you wait?  
Please consider all I underwent  
Each time we conjugate

Getting out of bed these days  
By lunar phase to graze in tall grass  
Rain and rainbows suffer same delays  
Praying for this spell to pass

Why don't we vacation near?  
Each sightseer loves local station  
Cash is tight, loose slots are pennies here  
Would this cause deep frustration?

You must want me to come clean  
No more caffeine, gin and juice or wine  
Promise to start healthier routine  
Each day you'll stay and be mine

## *Come On, Kelly*

Come on, Kelly  
Is a little talking so bad?  
Think about the love that we both had  
Is a few minutes worth all this pain?

Come on, Kelly  
Would a hug and a kiss take too long?  
Would a little bit of peace hurt before we're  
gone?  
You've destroyed everything. Don't you owe me  
this?

You've taken my love and turned it to pain  
I create more and you do it again  
The two of us know the truth  
But only one of us seems to care

Close your eyes and kiss me  
Don't say a word, just miss me  
Hold that moment in your heart with me  
Live in love the way we both should be

Every night is a horror movie without you  
Every day a broken script without you  
Each day alone a tortured riddle without you  
Solve our mystery with a simple question  
"Ynot?"

## *Lover's Hell*

There's a girl with a man's last name  
She shuns the spotlight offered by fame  
She hides inside my memory  
Perfect picture that follows me

Rain dots the roof of my current Hell  
Flowing down window of my unlit cell  
Tracing the likeness of a prim cress  
Letting me drown without a vest

Now I'm swirling around a dripping drain  
Emptying love given away in vain  
Purple heart that dies with dishonor  
Seeking to build a new life beyond her

A lily grew in desert sand  
Then fell through the fingers of fisted hand  
The tighter I held the more she fell  
Now I'm stuck in a lover's Hell

## *Influit*

I herd cats with bats that hit on the dog catcher  
Needles eye the point I just forgot  
No one here steers the mighty rodeo ring master  
Miming gold rope chained in love-me knots

Will you ever try?  
Will you always lie?  
Never, never will I ever see  
Maybes here are flying  
They aren't mean from my end  
Catch a drift before she ups and leaves

In flew the birdie  
Out flew the song  
Into more visions  
Hope you'll come along  
Our lust bust crushed trust's golden dust  
Then in flew it again

Will I see you cry?  
Your dear wants to know  
Are you on top now  
Or still short on dough?

Excuses are prying  
Out all my nails  
Caged up my rage from another age

Then in flew it again

I love you then hate you then love you  
Then look and then look and then  
In flew you again  
In flew you again  
In flew you again

## *18 Months Hard Labor*

Sure as hell she's right on time  
To not pick up the phone  
Same tragic story over and over again  
Pull back the curtain, wizard's dead for certain  
While in the same tone, irritation has grown  
For no girl at all, please answer the call  
What keeps her away from my call?

Her claim is turning off the power  
Beats being rude  
In two years I think it's not once been turned on  
What long-term this con  
For her silent love pawns  
Of course I am stewed! What a sick attitude!  
Could she try but once, create love without  
stunts?

No more lies, no more midnight hunts!

Flying home for a rest for a while I can dream  
High above the clouds with angels beside me  
The future I see, she and I happily  
Or so it would seem, 'cept for one awful theme  
It sends shivers, shakes,  
Such grief vain girl makes

Encumbered by deep heartfelt aches

Turbulence mimics the way  
That her gimmicks spread pain  
She's aloof to her island of zero joy  
No hope for this boy, sincere love is her toy  
With hers on the wane  
Mine grows, growing insane  
As costs and tolls rise, she looks less a prize  
Cheap carnival crap I despise

Still my heart beats to her tune  
A sacred fishy song  
Allure cast it deep, caught me wailing net free  
Reeling in harpie while sirens surround me  
Celebration's on, table one water bong  
Smokeless fire pittance bade good riddance  
Come spend a night with your kittens

## *Singing a Symmetry*

Colors and energy prance from my head  
Forming a lineup of dancer's profiles  
Grey bows light dim pathways leprechauns limp  
Taxi drivers deliver perfect 10's to their pimp  
Colors and energy drip down into shale

Kicking tires, car rusted  
Tractor stands in the field  
Making use of the rain as a tomb  
Sowing rifts up and down  
Riffs from raft of sad clown  
Balloon batons caught on the fence

Every inch of each certified Grinch  
Measures out a new dose of prescribed bile  
Why can't tertiary players  
Act as soothing sayers  
Pick up your croco-dial, dial, dial

Kelly – weapon of choice  
For heroes with no voice  
List and rules and on and on and  
On eve of my Sabbath  
Hey! Who wrote in my canned path?  
Forget rules if no principles ring  
What a very manly spender's thing

## *What If We're The Ones?*

Last spring when I called you called it a joke  
It's been eight months since we've talked  
Now the story as changed  
But the lie's still the same  
You don't know how far I've walked

You say yesterday's gone  
You've set the pace and moved on  
Throw your memories out with the pain

I'm left holding the bag  
Of the dreams that we had  
Cold and soaked left out in the rain

What if we really aren't done?  
What if you're the one?

You hiss and you scream  
Your evil eye's burning beam  
Strikes me deep in the depth of my heart

Avoid all my calls  
While I yell at the walls  
Never knowing why you demand to depart

Ask yourself a question  
Whisper it now

What's so wrong with a promise  
Why not suffer a vow?  
An ounce of commitment  
Means nothing it seems

What if I'm the one?

I've come out past the valley  
Climbed over the hills  
Nothing left in my fire  
Except this hot iron will  
Take a tip from the waiter  
The special is you

What if we really aren't done?  
What if we're the ones?

## *Looking for My Last Girlfriend*

Three times struck out by the hedge that hid you  
Pacing sighs back to the start  
Pulsing with rushed vain misery  
Counting finger taps between bugles  
Seeing more shadows meant infinite frost  
Seeing you in each window  
Silly golden goose lost  
Crying silently to snakes that attend puzzled

Seems days ago woes piled to compete  
Wisps of weeks whisper 'tween each  
Months of decoy ducks in a row  
'Til leaks sank my sanity  
Two Christmas reefs splashed with wax  
Museums horse installations  
Jockeys flipped by libations

This mad, mad world was supposed to be fun  
No pranks that thank creeps crawling from sun  
Challengers ready while judges go steady  
Cameras flash burned out bulbs  
At two lips too ready

Where is she now that these curtains are  
crushed?

Where is she now that these certainties slushed?  
Where is inspiration at a time like today?  
Now's the very best time  
To see all things her way

## *Where's Kelly?*

Barking dogs light up the scene  
Paper bags rustle by in the wind  
Taking turns without any style  
Hide my tears in the crack of a smile

Seem to recall the same song from last year

Where's Kelly? Is there someone that can see?  
Where's Kelly? One heart is not enough for me  
Where's Kelly go when the drinks aren't free?  
Find your way alone to where we play as a team

Eyes creep by the hedge to a horrible end  
Last dark fanged ghost said he was a friend  
Turn my back and no fair autonomy's mine  
Counting the seconds 'til the mantle ray's shine

Do her boyfriends fill her up with hot air?

Where's Kelly? Is she looking out for me?  
Where's Kelly? Is love still her priority?  
Where's Kelly go when she leaves the house at  
three?

Smoke signals in the dark  
Lead you straight back to me

## *They Care About TV, I Care About You*

We met if you'll remember  
In a very charming way  
Lucky gambler folded once  
Queen of Hearts decides to stay

You said, if I can recall  
Each time you'd pick up the phone  
Your dream was having it all  
Bright fantasy like my own

Years later the dream is lost  
Will to find it close behind  
Walls are rising with the cost  
Soothe my mind before I'm blind

Tell me Kelly, or is it Shelly?  
Names don't matter anyway  
Half belly, twice as smelly  
Is how you'll find me today

Back to topic, focus please  
Have a question in my head  
Do you still love or try to?  
Trying takes me close to dead

Prior way of sighing here

Gave homage to our mem'ries  
Two years later you can hear  
Tears mocking birds on cold breeze

Why then do you trust that clan?  
Does their will harbor no ill?  
Pay close eyes as actions planned  
Empty till until it's nil

They love glamour, fashion more  
Your season of which has come  
Measured pours defeat all fours  
Tread lightly to ward the numb

Magic acts are for the stage  
Cards build awfully weak houses  
This show is open to age  
As long as pair of spouses

They care about their TV  
I still care about my wife  
Reflections are all they see  
Mirror Indians for life

## *Run On Sentence*

Mornings are bright around my home  
Most start in the afternoon  
Rhythm and poetry fade out of tune  
Wishful thoughts won't end them soon

Teasing toys march in pairs  
Polly-sided sadists appear  
Red-eyed Santa stomps in my lair  
Hunting the doe-eyed red nose deer

Ale leans back to ante up toast  
Guzzlers steal from my tank  
Engine spits insulting roast  
Maintenance breaks the bank

Floating up each blue burial hill  
Catching the wind back down  
Open window keeps it under will  
Survival's the law in this town

Accounts are falling like stars  
Faith ran scared from the fun  
Concern floats among steel gars  
In timid nation waiting for one

Money crumpled aside burned poetry  
Worthless until we agree

Debating endless beads of rosary  
'Til heart paths cross permanently

This is my run on sentence  
Verdict whose opinion is clear  
Talkies obsessed with past tense  
Walkies marry fawn runners too dear

Years after hereafter fear actors hear

## *Polly and a Story*

Polly and a story  
Tracked by vicious little harp  
She took my love for granted  
Unaware she played a part  
Playing night all day departed  
Only Pisces on her ark

Wicked whichever way went  
Disturbed you lent soul in for no fee  
You and Lily saw eye to eye  
Now she knows you won't see me  
No more rhyme at closing time  
Come now or never be

No place to roam or dream of  
Past has burned the future down  
I called her twelve times daily  
Tried to find her on the town  
Out of breath less money  
Hearing angels gather round

Please listen very careful  
Not much time to tell you true  
My love was never vengeful  
Only faithfully for two  
Kiss me again but please come quick  
Life force is fading without you

## *Canada Goose*

Most times it seems coastal clear  
Vacant the voices I hear  
Lies that stand up for low downs  
What was that?  
Now it seems  
Ignorance lights up the dark fiends  
Focus lost to the blurred absurd sounds

That was seven this morning  
Now midnight's still performing  
Actors wield hearing short lines  
Not again  
They aren't well  
Garbage Pail Kids managing Hell?  
True love once full now empties my mind

Must I wait 'nother Winter  
For my dream girl to enter  
Catch her tail as she flies south?  
Was that squeak  
That rude boy?  
Was it her call or a decoy?  
Too chaotic to correlate mouth

Look here please beautiful goose  
My kidnapped love never loose  
Vain assholes can't handle wind

One more breeze  
They run scared  
Influenced by crimes they've all shared  
Once Bizarre foes now act as our friends

Some nights I hear you fly by  
Chased by some charlatan guy  
Why do humans lose respect?  
One excuse  
All they need  
Playing opossum to all creeds  
Write to Russia and help us defect!

Getting ahead of my self  
Where there's no food on the shelf  
Must be time travel, I'm it  
Empty fridge  
Rice and beans  
Broken glass, doors and some wall beams  
Ask permission to write my obit

Why'd you fly north this summer?  
This is more than a bumper  
Hosers hide you as I bleed  
Carry cross  
Why bother?  
Free shipping to heart broke author  
Care of Khazakstan, new age indeed

## *That's My Girlfriend*

Can't catch a wink without cat calls  
Meow Mix fills my grocery list  
Human egos fill ev'ry wall  
Souls as cruel don't exist

Seventeen months they still chant 'redrum'  
Groundhogs would rather no Spring arrive  
Fake officers swarming a bum  
Wasps on honey bee's smoked hive  
Buzz terror 'til hearts go numb

Can't claim a single love for me  
Revisionists squat at the line  
Vegetate while cannibals dine  
Blood thirsty sobriety  
Game over time

Here's one of the truths snakes can't bear  
They chase it yet can't speak for lisp  
Letter 'S' go, you're all she fears  
She's my wife, cruel sophist

Yes, that girl that you leash for safety  
Call her names for the sake of control  
She says 'Áye Aye' to you, matey  
'Çause she's a fish in your bowl  
Two years silent 'mate waits me

That woman you laugh at and take  
Is not a packaged magic deal  
Hair club men treat her like baby seal  
That's my girlfriend, you flat fakes!  
Let her grief heal!

Poems by Philosopher Kings  
Aren't usually as simple and plain  
Built for those rhymers who can't sing  
Humpty's seamen poach 'gain

Break out of your ignorant box  
One leader can key all your locks  
Tradition rules classroom books  
Lectures from historian crooks  
Sell out artistry, energy wanes  
That's My GIRLFRIEND!  
You miserable pains!

## *Everywhere, Everywhere*

Good evening dear  
Are you alone sometime in the near?  
Can you chance a quick call or suffer his wrath?  
I've had trouble with peacocks here too

Please consider  
Size without depth should raise no fear  
Months before runts marched in felt joy on this  
path  
Now pairs of animas split us two

Just one good thought  
Delivered by decent mimes hung low  
Hoping one Hopi has the mark for the book  
Silently written, loudly delayed

Now it's "Hear Here"  
Perspective shifts as northern air blows  
All ways everywhere chatted down from my  
nook  
Second helping on Thanks Taken Day

Footsteps rustle  
Leave trails of love listing on the rocks  
Mere maids are puppets not fit for the show  
Ventricle quizzes harangue me numb

My crow scopes here  
Glass, plates and rubble adorn my box  
Style consultants with pitch forks and archer's  
bow  
Every awareness defined by dumb

## *Lover's Escape*

For scores severed, known and obscured  
Honorable crooks hide epic love bound in twine  
Misery chuckles and paws  
Tramples right-angled laws  
Shrieks bleed off into dark alleys  
Cars race off stolen by valets  
Jackets thrown to the curb  
Lover's escape from the birds

## *Rite of Way*

Still midnight again  
Hear no sign of my friend  
Bird song is gone, too sore to walk  
Cold words from on high  
Say she's not only shy  
Exerting her right not to talk

Dreams move in with the clouds  
Hope leaps although bound  
Two hearts held in love will not break  
Imposters perform  
in midsummer warm  
Unknowingly crush what they take

Pile up my words  
Stampeding herds  
Rush in to give me one more shot  
Funeral pyre  
For strongest desire  
House now soaked in thick hatred smoke

Crawling up to the wall  
Need picture that's all  
Glass stuck in deep, blood drips from feet  
Last arm muscle extends  
For look at my friend  
Smiles are distant death rises to greet

All the lights swarm out  
At my last muttered shouts  
Damn those employed by Scarlet Hunt  
Pick up their paycheck  
Leave another life wrecked  
Kidnap only woman I want

Two days later I peek  
Sweating from the heat  
Rubble and shards carpet the floor  
Captain sank under ship  
Readily equipped  
By compassion thirsty for more

## *Too Broke for Bankruptcy*

Lights are out at twelve to ten  
Cold air and souls in flight at ease  
Shrieks shadowing spiral geometries  
Piggy bank is broken, nothing to lend  
Careful, look more closely on knees  
Scan for dimes, quarters and sense to the end  
Thelemic noodles keep you strong  
Want not to waste, haste makes it anyway  
Epic love speaks truth never wrong  
Race to win before your horse says nay  
Thoreau bred innocence now swings  
Back and forth cross flat line  
Substantial structure can remove the sting  
Pen duels them until Kelly's life shines

## *LOVE*

Kelly cries from across  
Hear her shrieks  
Mourn her loss  
Will fortune ever favor us?

Weeks are years now  
Calendar's ripped  
Don't know how  
Illuminated? Quite foul

We used to take our time  
In much a different way  
Waking up for hours  
Turning down with much to say

Whispering by moonlight  
Every innocent desire  
To each loving listener  
Two hearts burning with a fire

Salty little kisses  
At the net as we switched sides  
Forgot about the score  
We simply loved to play outside

Strolling 'round the lake  
Watching ducks and holding hands

Ambling down the paths  
As if held by wedding bands

Picking up my true love  
Fifteen minutes after work  
Bringing her red roses  
If I ever was a jerk

Snowball fight in Santa Fe  
Then on to our Kabuki  
I long for walks with my love  
And her little dog Haruki

Remembering our cozy bed  
Fronted by kiva and a flame  
How could I ever love anew  
No girl could ever feel the same

Racing as she took a nap  
To catch the silversmith  
Private table at Chimayo  
Bracelet to surprise her with

Birthdays in the City  
Foreign Cinema and Asia  
Water Bar and dancing  
Hard to tire out my geisha

Riding on the Ferris wheel  
Fairest one of them all  
To see into the life I love

Doesn't take a crystal ball

All I need is memory  
And a quiet little space  
Years of love come racing  
Like the smile across my face

Kelly, you're my deepest love  
You took it too far down  
Consider what resentment costs  
All we could have loved by now

I wanted us to marry  
Even a lamb if you'd agree  
Please don't be shy or nervous  
Reach out and contact me

I might have sounded crazy  
Or frustrated to the tip  
Christian never told me alchemy  
Could give me a busted lip

There's no apparent ending  
To the never ending tale  
I pray that as I'm tending  
Sand bar will beach the whale  
Cold silence of my longing  
Turns the cool rain into hail  
Please return my phone call  
My heart is locked up in your jail

Isle of you  
When you do  
So will I  
Release Love  
Epic Love  
Finer Love  
Lasting Love  
Endless Love  
Uppercase Love  
Our LOVE

## *I Do*

Still I Do  
Despite that you  
Never will return my call  
You're too busy  
To spare a few  
My hardworking Oaxacan doll

Fifteenth month  
Spent in this hut  
Angry walls are closing in  
Can't keep my heart  
Safe from each cut  
Crying each day and night must end

Weakened knees  
Drop under me  
Doing my best to stand up  
Can't feel fingers  
Except for those  
Memories of soft hands mine cup

Do you smile  
Just think awhile  
When you remember our love?  
Can you tell me  
Without denial  
My wonderful gift from above?

Please come now  
Time kills and how  
I'm hanging on by our thread  
No other girl  
Deserves my vow  
Kelly alone in heart and head

I love you  
First kiss I knew  
First day I saw your bright eyes  
We hardly slept  
One wink or two  
Ours is epic, no compromise

What can I  
Say or provide  
To rekindle our love life?  
Want only you  
Seek me, don't hide

**Dear Kelly, will you be my wife?**

## *Silent Iris*

Meteors vegetating  
Storm hails white sails impales grey whales  
swirling in gales  
White tigers on perch  
Guard the altar from the Church  
Blood hounds gang up sneak attack  
Thin water boy's sweating back  
Triple twelves haunt these  
Artful mavens tease  
Double ells hot from the breeze

One forgotten drop drips fore  
Light haggles belted trails postdated males no  
sales

Archer backs the buck  
Fawns and frames story with luck  
Roving eye tracks diamond worth  
Facets sparkle up the fourth  
Glowing mums and bums  
Stumble bees seize hums  
Broken buzzards saw comes

Mediocre hoaxsters blab  
Iron ore smelted gore casts pour mechanized  
hollow roars  
Point of Know returns  
Eye of ravenous rug burns

Squint and roll to catch a tune  
Rapid calm fills pale full moon  
Jack and Jill out front  
Register for hunt  
More evil canned weavel stunts

Tingle falls splash textured walls  
Cover letters, know betters, debtors, tone  
setters  
Stare from top of fence  
Vultures await their two pence  
Crying into my bare hands  
Praying grey ghost ship finds land  
Captain shouts above  
Quiet now save white dove  
Finding faith in faithless love

## *One Kiss*

Why does the girl I love love others more?  
My devotion must surely catch her eye  
Waiting in this desert from rich to poor  
Oasis sits just out of reach, I cry  
For fifteen months I sit and watch the phone  
Rush to the door when ghosts walk up to knock  
Such grace to leave a knight like me alone  
She must be dancing with a strapping jock  
Kelly dear can you hear my whispered love?  
Can star light shine on you from in my dream?  
They twinkle and they sing for you my dove  
Such ache to parrot each lamented theme  
Take time from out your scheduled year  
you brier  
I've waited years  
one kiss 'fore I expire

## *About the Author*

Ewan Lillicii is a Las Vegas poet who gave his heart to Kelly Yvonne Zuniga in a situation some people equate with the Scarlet Woman. This fantasy tale of magic is a far cry from the true misery of being gifted with the grace of artistry and gift of hearing the frequency of souls only to find yourself without the half of your own soul that would have made every moment brilliant for eternity.

My advice to others who find themselves in similar depressive states that are resolved from a supernatural source is to avoid all contact and conversation with spirits that purport to give you news or advice on your lost love or in any way create an environment of stressful intimidation. Your love is your muse. Write, sing or paint your life your way. No game or magic is worth as much to you as regaining your complimentary partner to keep epic love growing for a lifetime. Write a new future and capture her heart with it gently. Choose your own story and make it a success.
